## **Gus Greensmith Teams Up With Golden Globe Winner, Idris Elba**

Golden Globe winner and Emmy Award nominated Actor and producer, Idris Elba is embarking on a new and exciting challenge pushing himself to his limit. Idris will be racing on land, water and in the air for a new 4-part TV documentary series airing on Discovery TV.

Scheduled to air in mid-2015 Idris will be learning the skills of a rally driver, street racer, aerobatic and power boat driver along with the science, engineering and history associated with each adventure.

Each challenge will see Idris join a team of professionals whom will work with him to help him achieve his goals, and who better to show him the ways of rally driving than one of the UK's most up and coming rally drivers, Gus Greensmith.

Idris Elba will spend a few days with Gus and his team and will learn the mechanics of Gus' Ford Fiesta R2 and how to handle it in the most testing of situations. With Gus recently making his debut at the FIA World Rally Championship, Wales Rally GB, Gus is certainly a rising star in the world of motorsport and will be a fantastic mentor to Elba.

We look forward to seeing Gus and Elba's progress #GREENSMITHGUS"
